–Let’s talk about

Automotive

The Pitmans’ Perspective on: *Automotive*

“A vast experience over a number of practice areas of the automotive industry.”

What we do: Our experience includes advice in relation to: high profile top tier mergers and acquisitions in the motor industry and also smaller and mid tier acquisitions; disposals and joint ventures; commercial contract terms and conditions and arrangements and agreements relating to distribution, manufacturing, supply, employment and outsourcing; refinancing and security issues, restructuring packages, mainly in distressed situations, including advice to stakeholders, suppliers, customers and landlords; commercial, fraud, insurance, employment and property disputes, from High Court cases to more minor issues, including the consideration and adoption of alternative dispute resolution methods; commercial property issues and landlord and tenant issues.

Who we act for: As well as vehicle and component part manufacturers, we also act for clients in distribution, retail and after market – and those in motor racing, Formula 1 and other racing series.

Why we do it better: Thanks to our broad automotive client base, we have vast experience over a number of practice areas of the automotive industry. We offer a full service provision to all automotive related businesses, providing advice in layman’s language at a highly competitive price.

How we are different: Our Pitmans SK Sport & Entertainment team bring together our long-established expertise in motorsport with members that have acted for the management of Formula 1 and Le Mans champions, race teams, series and Grand Prix race circuits. Our team handles sponsorship deals, contractual, commercial, regulatory, technical and intellectual property issues within motorsport. This includes everything from team and driver sponsorship, circuit safety and partner software licences to event management and hospitality.
