

–Let’s talk about

## Defendant Insurance

### The Pitmans’ Perspective on: *Defendant Insurance*

“A dogged defender of our clients’ interests.”

**What we do:** Our main practice areas include construction; dispute resolution; employer’s liability; fraud; health & safety; industrial disease; inquests; motor claims; policy disputes; product liability; property; public liability; recoveries; risk management; stress and WRULD claims.

**Who we act for:** We act as legal advisers to insurers, self-insured, syndicates, loss adjusters and brokers, as well as corporate clients.

**Our expertise:** We provide a comprehensive range of services from initial accident investigations through to catastrophic multi-party claims, both in the UK and overseas.

**Our service:** As a team, we adopt a pro-active claims handling philosophy and work very closely with clients to resolve disputes speedily and cost-effectively.

**How we are different:** We develop close working relationships with clients to best understand and satisfy their specific case objectives and service requirements. As part of this relationship, we provide on-site training. Topics we cover include: anatomy of a Court action; compliance with the pre-action protocol for personal injury claims; credit hire and the remaining defences; disclosure of documents and compliance with that duty; disclosure of documents and privileges; employer’s liability; fraud and serial claimants; industrial disease claims; seeking medical examination on behalf of the defendant or proposed defendant; and WRULD and stress claims. We can also provide protocols and guidance which can be used in clients’ claims departments to help minimise the costs of defending claims and to deal with current awareness in the fields of defendant personal injury and insurance litigation.
